Reporting period and scope

This report covers financial and non-financial information and activities of Affordable Robotic & Automation Limited ('the Company' or 'ARAPL') during the period April 1, 2024, to March 31, 2025. The report's financial figures have been audited by M/S Vijay Moondra & Company, Chartered Accountants.

Materiality

We cover key material aspects that have been identified through our ongoing stakeholder engagement and are addressed by various programmes or action points set by the key management personnel.

Responsiveness

Our reporting addresses a gamut of stakeholders, each having their own needs and interests. This report is one element

of our interaction and communication. It reflects how we manage our operations by accounting and responding to stakeholder concerns.

Forward-looking Statements

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take investment decisions. This report and other statements – written and oral – that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried, wherever possible, to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes' and words of similar substance in connection with any discussion of future performance. We cannot guarantee that

these forward-looking statements will be realised, although we believe we have been prudent in our assumptions. The achievements of results are subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should keep this in mind. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

Expanding

g Reach.

Reinforcing our Growth Strategy.

There comes a time in the journey of a business entity when it has to start making choices to grow from strength to strength and not be afraid of the consequences.

Over the years, we have fortified our position as a dynamic and agile player, constantly focused on changing ourselves and building our strength through diversified solution offerings.

But most of these changes were in line with the changing needs of the time and the changing needs of our customers.

Thus, we thought it's time to transform ourselves by undertaking some conscious choices. And if the choice lines up correctly, it would help us grow at a faster rate and would make our growth a sustainable one.

Over the last few years, our major focus has been to expand ARAPL's reach from widening our geographical presence to tapping into newer markets, we strengthened our ability to serve a broader customer base and capture emerging opportunities.

As we focus on transformation and expansion, we have put our imagination and our science to work to offer innovative and improved industrial automated solutions, anticipating the needs of our customers.

Expanding our horizons while strengthening our strategic foundations has been the driving force behind our progress in recent years, and it is this very approach that will continue to propel our growth in the years to come.

Infused with new energies,
we are steering to our
next phase of growth
and expansion, through
an increased focus on
operational efficiencies and
understanding the demands
of an evolving industry.

Through strategic efforts, planned investments and an ardent emphasis on R&D efforts, we are continuously harnessing the power of automated solutions portfolio and our people to prepare for the future and unlock our next phase of growth.

Building on the legacy of our deep-rooted values and our sustainability focus, we are surging ahead to reinforce the trust of our customers on ARAPL.

In our quest to reach new and brighter horizons of performance and progress, we are investing in further investing the core of our business to drive greater sustainable and inclusive long-term growth.

Our range of offerings, quality, and attention to detail made ARAPL deeply trusted amongst some of the most respected corporates in India and abroad.

Today, more than ever before, we realise our responsibility to remain attuned to the demands of tomorrow.

Valuing our inherent strengths and a clear roadmap to tackle the challenges on our path, we are identifying new trajectories to lay the foundation for sustainable growth.

From the Managing Director's desk

“Innovation at ARAPL starts by deeply engaging with our customers to understand their unique operational challenges. Our commitment goes beyond delivering just automation solutions, we focus on providing real and practical solutions through value-driven engineering.”

Dear Shareholders'

It is my privilege to welcome you all to the Annual General Meeting of ARAPL. I want to start by expressing my heartfelt gratitude to our shareholders, partners, customers, and employees for their unwavering trust and continued support throughout a year marked by both meaningful progress and valuable experience.

This year, we achieved a 7% increase in revenue compared to the previous year, driven by robust demand in our core automation and robotics areas. Even more encouraging was EBIDTA growth, which grew by 12%, outpacing revenue growth and widening our profit margins. This strong performance is a testament to our disciplined capital allocation, efficient sourcing strategies, and relentless focus on operational

efficiency. As we continue to pursue excellence through value engineering, smart sourcing, and enhancing automation within our processes, we are optimistic about delivering even better results in the fiscal year 2025–26.

On the cost side, we successfully reduced employee-related and discretionary expenses while maintaining our growth momentum. Our profit after tax

(PAT) stood at ₹598.60 lakhs, slightly below last year's figure due to increased finance costs related to capacity expansion and working capital investments. These were conscious decisions meant to strengthen our core foundation for scalable and sustainable long-term growth. Looking ahead, we expect margins to improve in FY25–26.

Currently, ARAPL's order book is strong at ₹8,000 lakhs, with an additional ₹2,000 lakhs in advance stages of discussions. This healthy pipeline not only highlights our customers' confidence in our solutions but also underscores the increasing relevance of our solutions across various end-user industries.

ARAPL RaaS Business

Turning to the ARAPL RaaS business, this year marks a pivotal chapter in our journey with the launch of Humro, our dedicated brand for ARAPL's Robotics-as-a-Service offerings. This isn't just a new name change, it symbolizes our transformation into a truly global deep-tech brand with deep-rooted in Indian innovation. Our mission is clear: to deliver autonomous solutions that matter most, wherever they are needed. Through Humro, we aspire to stand shoulder to shoulder with the world's leading robotics and

technology companies, creating scalable and accessible solutions proudly engineered in India for markets around the globe.

Over the past year, Humro has completed proof-of-concept trials with more than 10 clients, many of whom are now transitioning to signed contracts. These early partnerships are translating into real business momentum. To date, we have shipped 20 robots to the United States, with an additional 10 scheduled for delivery by the end of September.

As many of you know, the robotics sector naturally involves longer sales cycles. However, once initial installations are in place, adoption often accelerates rapidly, and we are already beginning to see this positive momentum unfold.

The recent changes in US tariffs may have an impact on Humro's revenue, but we responded swiftly and strategically. We implemented a modest price adjustment and shifted to CKD (completely knocked down) and SKD (semi knocked down) shipment models.

Innovation at ARAPL starts by deeply engaging with our customers to understand their unique operational challenges. Our commitment goes beyond delivering just automation solutions, we focus on providing real and practical solutions through value-driven engineering.

Looking ahead, we will explore new segments and product categories that align with India's evolving needs, developing solutions that match the aspirations of a growing and dynamic nation.

Even with these adaptations, Humro is expected to remain 15% to 20% more cost-effective than our competitors, and nearly half of our US sales were secured through inventory purchased before the tariff changes. While tariffs and related logistical delays caused a temporary two-month slowdown, but our overall strategic direction remains firm and focused. On a consolidated basis, Humro reported a planned loss of ₹1,763.74 lakhs, fully aligned with our deliberate growth strategy. This investment is likely

to actively fuel the expansion of our US operations, turning proof-of-concept trials into long-term contracts, accelerating customer acquisition, driving product and technology advancement, and strengthening our leadership and technical expertise.

Our manufacturing capacity is now fully operational for in-house batch production, capable of producing up to 300 robots annually, an essential milestone on our path to becoming a global robotics powerhouse.

Looking ahead, we are gearing up for our entry into the European market. We'll take a measured approach, expanding into Europe only after our US business reaches revenues between USD 10 to 20 million. This ensures our growth remains both meaningful and sustainable.

Colleagues, this past year has been about building a solid foundation, investing in technology, talent, and capacity while earning the trust of customers here in India and across the world. The upcoming year will be about scaling these efforts and accelerating our global reach.

I would like to close by extending my heartfelt gratitude to our teams across India, the US, and other markets. Your dedication and hard work have brought us to this exciting point. To our shareholders, I reaffirm our unwavering commitment to building India's first truly global robotics brand and delivering sustained, long-term value.

Thank you.

Mr. Milind Manohar Padole
Managing Director

Affordable Robotic & Automation Limited at a glance.

We are India's leading provider of automation solutions specializing in robotics, conveyor systems, and turnkey automation projects.

We design and deliver cutting-edge solutions that enhance productivity, efficiency, and precision for our clients across diverse industries.

We have built strong capabilities to serve a diverse spectrum of industries, including automotive, manufacturing, logistics, and warehousing, delivering solutions that meet their unique and evolving needs.

We are India's 1st robotic Company to be listed on the Indian stock exchange.

Founded in 2010, Affordable Robotic & Automation Limited (ARAPL) has grown into one of India's leading providers of cutting-edge automation solutions. Over the past two decades, the Company has built a strong reputation by staying closely attuned to customer needs, consistently delivering value through high-quality, reliable, and innovative automation systems.

Today, ARAPL offers a comprehensive portfolio that spans parking solutions, plant robotization, assembly line automation, storage and turnkey solutions, as well as automation services. With this diverse range,

the Company serves a wide spectrum of industries, including automotive, manufacturing, logistics, and warehousing. Its expanding capabilities and customer-centric approach have enabled ARAPL to partner with some of the most respected corporates in India and across global markets.

Our legacy

As the founder and promoter of Affordable Robotic & Automation Limited, Mr. Milind Padole brings with him over two decades of rich, diverse, and invaluable industry experience. Guided by his vision and leadership, ARAPL has emerged as a prominent force in India's robotic automation and robotic turnkey solutions sector, steadily moving up the value chain and has successfully expanded its horizons, diversifying its portfolio across different end-user industries.

Our Vision

To become the world's most trusted autonomous robotics platform for factories, warehouses, and supply chains.

Our Mission

To democratize industrial automation by delivering intelligent, zero-CAPEX solutions that turn today's operational constraints into tomorrow's competitive advantages.

Values that drive us

People first: We place the well-being and growth of our people at the heart of everything we do, recognizing that they are the true strength and driving force behind our success.

Entrepreneurial accountability: Every member of our team embraces an entrepreneurial spirit, taking full ownership of their responsibilities, celebrating successes with pride, and approaching challenges as opportunities to learn and improve.

What we do

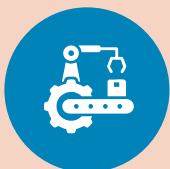

Backed by our 3,50,000 sq. ft. state-of-the-art manufacturing facilities, we offer a diverse range of value-added automated solutions designed to meet the evolving needs of our customers.

With a relentless focus on innovation and customer satisfaction, we have curated a portfolio that encompasses cutting-edge and turnkey industrial automation solutions for a wide range of end-user industries. From robotic welding automation and customized design services to smart material handling systems and advanced automated car parking solutions, our offerings are thoughtfully engineered to deliver

efficiency, reliability, and superior performance. Built to withstand the most demanding applications, they not only optimize operations but also create lasting value for our customers.

Our 3 Key Business Solutions

Industrial automation

ARAPL is a leading turnkey provider of industrial automation solutions, offering expertise in assembly lines, conveyors, robotic systems, welding cells, SPMs, and precision fixtures. By designing and programming intelligent, sensor-based processes, we help manufacturers achieve faster production, higher accuracy, and consistent quality with minimal errors.

Robotic multilevel parking

ARAPL designs intelligent and efficient car parking solutions customized to client requirements. By analyzing available space and parking capacity needs, ARAPL develops optimal systems that maximize utility and convenience.

As a parking system consultant, the Company, when engaged at the project planning stage, provides developers with expert guidance on ideal layouts and dimensions, ensuring ample, well-structured parking in the most effective and sustainable manner.

Warehouse automation

At ARAPL, we take pride in delivering end-to-end warehouse automation solutions through our brand Humro. Built on innovation, superior quality, and a deep commitment to customer success, our solutions go beyond technology—they create lasting value for every stakeholder. By transforming traditional warehouses into intelligent, future-ready spaces, we help businesses achieve greater efficiency and resilience. From cutting-edge robotics to fully automated systems, our technologies are engineered to set new benchmarks in speed, precision, and reliability across today's supply chains.

Where we are

Headquartered in Pune, Maharashtra, the Company enjoys strong brand equity in the domestic and international markets thanks to ARAPL's growing offerings. Today, ARAPL not only has a strong presence in India but also has a growing presence outside India.

Today, we operate through our corporate office in Mumbai and through our sales offices and manufacturing unit spread across India and strategic international locations.

Our investment propositions

What makes ARAPL an interesting investment story?

Our business philosophy has been consistent for many years: investing for the long term while delivering cash-generative profit growth in the near term.

Our regained financial strength and strategic tie-ups with renowned international players is expected to propel our growth and enable us to make long-term investments. By investing in advanced technology, modern equipment, and data-driven, agile processes, we are laying a strong foundation for accelerated growth and are well-positioned to

expand our order book in the near future.

We believe there are a few simple and interesting reasons to make ARAPL an interesting investment story.

Doman expertise:

Over the years, we have developed deep domain expertise with the ability to meet ambitious design timelines, consistently delivering results without compromise. We thrive on innovative, out-of-the-box thinking, tackling challenges with creativity and foresight. At the same time, we adapt to the evolving dynamics of a maturing workforce, ensuring that talent and strategy grow in harmony. With a focus on seamless integration, we stay ahead in aligning systems, processes, and teams, creating a foundation for sustained excellence and future-ready execution.

A well-invested infrastructure:

Over the years, we have steadily strengthened our infrastructure, continually upgraded machinery and embraced advanced technologies. Simultaneously, we have developed a robust and agile supply chain that positions us to drive market growth. Across our core business segments, we remain committed to investing in the supply chain to enhance efficiency, support expansion, and meet our sustainability goals. Beyond this, we are also advancing our digital capabilities and IT infrastructure, ensuring that the business is fully equipped to achieve its growth ambitions and stay future-ready.

Our deep-rooted presence:

Over the years, we have built an encompassing portfolio across three major segments: automated robotic welding, robotic multilevel parking, and warehouse automation. Thanks to our unique offerings with unrivalled balance, scale, and diversity, we have entrenched our presence in not just one end-user sector but across multiple sectors to expand our revenue stream.

Strong market position:

We play a pivotal role in delivering end-to-end industrial automation solutions, with a strong foothold in robotic welding, multi-level automated parking systems, and advanced warehouse automation. As one of the pioneers in India, we are proud to bring these cutting-edge services to Indian industries, helping them embrace efficiency and innovation.

Strong technical capabilities:

Our solutions stand out through seamless IoT integration, supporting Ethernet and DeviceNet for simplified programming. They offer a multi-discipline control platform with the flexibility of an open architecture, all while ensuring the highest standards of safety. At ARAPL, we deliver advanced, indigenous technology solutions that help resolve critical automation requirements for the Indian corporates.

An engaged and agile workforce set up for success:

We're building a working environment where everyone belongs to one family. We have repurposed our work spaces to increase interactions, collaboration and opportunities for innovation with performance based on output rather than hours spent.

Collaborating for Impact:

Leveraging a strong PAN-India presence, we forge meaningful partnerships that go beyond mere alliances. Through a seamless solution handshake, we integrate our capabilities with our strategic partners, harnessing predictive analytics and performance benchmarking to drive smarter, more proactive outcomes.

Building a robust cybersecurity environment:

We ensure robust protection of our digital assets through a multi-layered approach: firewalls secure sensitive data, FTP enables safe file transfers, role-based access controls govern server permissions, and antivirus systems monitor all communications to prevent threats.

Expanding Horizon.

By building on our growth strategy

ARAPL's adherence to its strategic pillars and its flexible business model have allowed the Company to weather macroeconomic challenges and lay the foundation for a new growth phase.

Key beneficiaries of our growth strategy

Our strategy pillars

Since inception, ARAPL's success rested on our key strategic pillars that provide us with the flexibility and dynamism to capture market demand and adapt to an ever-changing operating environment.

Innovation and differentiation

Innovation is at the heart of ARAPL's operations as the Company strives to maintain its leading position in India's industrial automation and turnkey automation solutions market by introducing new and differentiated solutions that helps us cater the needs of a varied range of customers'.

Diversify revenue streams

ARAPL continues to seek new avenues for growth by expanding its range of solutions and introducing innovative product categories. Today, we proudly serve a diverse array of industries, including automotive, real estate, and core manufacturing, tailoring our offerings to meet their evolving needs.

Leverage human capital

The passion, expertise, and commitment of ARAPL's employees have always been—and will remain—the driving force behind the Company's success. Nurturing their technical skills and supporting their professional growth will continue to be a cornerstone of ARAPL's strategy, ensuring both individual and organizational excellence.

Geographic expansion

ARAPL has strengthened its presence in key industrial markets across the globe, including the US and China, and is now focusing on expanding into emerging markets such as Brazil and other high-potential regions. Building on decades of success in India, the Company aims to reinforce its export position in existing markets while carefully exploring new opportunities. Our strategy targets fast-growing markets with large consumer bases and significant growth potential, replicating our proven model of sustainable expansion on a global scale.

How we plan to reinforce our growth strategy

At ARAPL, consistent outperformance is derived from a disciplined business approach.

We do not see ourselves not just as another manufacturing Company.

We see our role as a focused research driven automation solutions manufacturer.

We do not see ourselves as volume-driven player;

We are a value-driven player instead.

We do not take proprietary positions within our industry space;

We invest in relationship-driven and customised solution driven customer engagements.

We do not believe in passing cost increases to customers;

We enhance profits from efficient process optimisation, maximised asset utilisation and cost moderation.

We are not only a product manufacturing Company;

We have extended to providing turnkey solutions as well.

We do not see ourselves as a usual Company;

We consider ourselves as specialists in the interplay of men, machines and materials.

Key components of our business model which would help us drive growth

What we do: Through robust operational efficiencies as well as effective process optimisation, we have emerged among the most-respected and cost competitive industrial automation and turnkey solution provider with a presence across different end-user industries and geographies.

Customization: Emerged from a make-to-stock approach to make-to-order approach resulting in improved customer relationship.

Asset-light: Focused on adopting latest manufacturing technologies to emerge asset light.

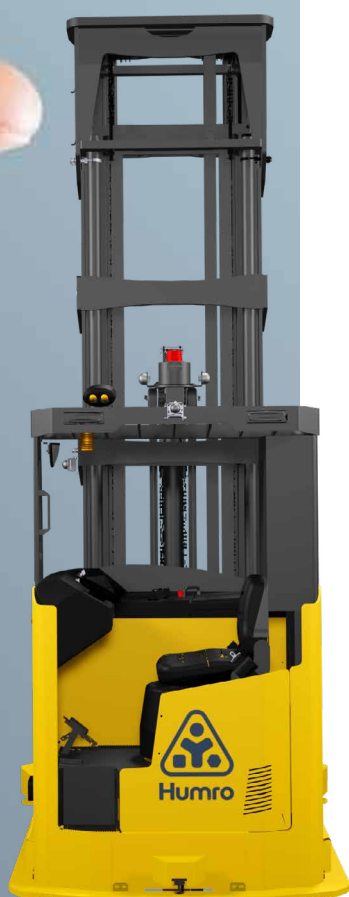

Disciplined: Focused on improving manufacturing efficiency and creating buyer relationships rather than focusing on arbitrage opportunities.

Financials: Strong balance sheet with lower gearing reinforces strengths of the balance sheet.

Environment friendly: Proactively invested in environment protection measures

Our Distinguished clientele

Expanding Horizon

Backed by an agile and empowered workforce

The development and retention of high-quality people with the curiosity and ability to challenge conventional thinking and to further innovation ultimately determines the success of our business. Talent management

We are committed to harnessing the combined strength of our brand and our people. With a focus on strategic talent acquisition, we actively encourage employee referrals, an approach that not only strengthens our recruitment pipeline but also reinforces our reputation as an employer of choice. We also tap into young talent through campus hiring, infusing our teams with fresh perspectives and agility that

enrich our organisational culture.

To retain top talent, we offer competitive compensation packages that go beyond salaries to include health insurance, performance bonuses, and work-life balance. Our robust internal career development framework empowers individuals to grow within the organisation. Backed by a diverse product portfolio and a dynamic business environment, we ensure our employees have meaningful opportunities to advance their careers across various verticals.

Wellbeing and safety

Our senior management worked on embedding safety as a value in FY25, recognising that while priorities change, our values endure and guide how we behave. Through tailored programmes, more than [] employees (including the leadership team) have collectively undertaken over [] hours of safety training aimed at building confidence around safety leadership and driving debate on safety.

We ensure environmentally compliant, safe and healthy working conditions.

A collaborative and supportive workplace

We embrace our differences, nurturing an inclusive and supportive culture where everyone feels valued, respected and empowered to contribute. Employee-led diversity and inclusion programs support us in raising awareness, creating connections, and ensuring that all aspects of diversity are considered in decision-making.

We firmly believe that diversity and inclusivity are not just values, they are the very foundations of our strength. Guided by this conviction, we strive to attract exceptional talent and foster a workplace culture that thrives on innovation and mutual respect. In line with this vision, we recently introduced two key initiatives designed to deepen inclusivity across our organisation.

Expanding Reach.

Through Our Sustainability Strategy

As the benchmark for excellence continues to rise, sustainability has become a key measure of our success. We are committed to advancing our performance across Environmental, Social, and Governance (ESG) pillars as we work towards becoming a respected global leader in the induction industry.

Guided by our vision to be a forward-thinking solution provider, we place unwavering emphasis on safety, quality, and reliability. Our efforts are focused not only on creating innovative technologies but also on making a meaningful difference, protecting the environment, uplifting communities, and upholding the highest ethical standards in everything we do.

Cornerstones of our ESG Strategy

The four strategic pillars of our ESG strategy guide us to create a positive impact on the environment and society, where stakeholders can find value and the business can create growth.

Innovating sustainable operations

We focus on reducing climate risks by cutting emissions, improving energy efficiency, and using renewable energy.

Reinforcing safety and well-being

We prioritise workforce safety through strict standards while continuously enhancing the safety and reliability of our products.

Enhancing employee growth

We are committed to growing our workforce by nurturing a culture that values employee engagement, upholds human rights, and embraces diversity and inclusion at every level.

Management Discussion & Analysis

Management Discussion & Analysis

Global economic growth

The global economy started 2024 with the confidence that inflation was largely beaten and that major economies would likely avoid recession. But as the year drew to a close, a nagging worry crept in: inflation proved to be much stickier than we'd hoped. While the US economy powered ahead, many other developed nations struggled to keep pace. On top of that, many countries saw their currencies lose value, a situation that could become especially tricky for developing economies.

Stepping in 2025, the global economic activity is expected to maintain modest momentum in 2025 owing to the likely shift in policy following numerous elections around the world. New policies could lead to new trajectories for inflation, borrowing costs, and currency values, as well as trade flows, capital flows, and costs of production. According to the IMF, the global economy is expected to grow at 3.3% both in 2025 and 2026, primarily on account of an upward revision in the United States offsetting downward revisions in other major economies. Global headline inflation is expected to decline to 4.2% in 2025 and to 3.5% in 2026, converging back to target earlier in advanced economies than in emerging market and developing economies.

Global inflation is projected to ease from 4.5% in 2024 to 3.5% in 2025, though still above pre-pandemic levels. Advanced economies are expected to manage inflation more effectively

than emerging markets, but factors like wage pressures, protectionism, and geopolitical tensions could create uneven outcomes.

The U.S. economy remains strong, with 2025 growth revised upward to 2.7% due to resilient consumer demand, a robust job market, and favorable financial conditions. Growth is expected to moderate by 2026. In contrast, the euro area faces slower recovery, with 2025 growth revised down to 1.0% amid geopolitical tensions and weak manufacturing, though it may rise to 1.4% by 2026 as conditions improve.

Emerging markets are expected to maintain stable growth. China's 2025 outlook is slightly upgraded to 4.6% due to fiscal support, while India is set to grow steadily at 6.5% through 2025 and 2026, in line with long-term trends.

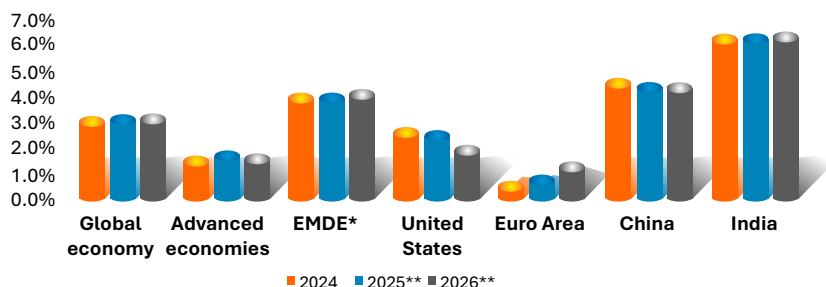

Regional prospects vary: the Middle East and Central Asia face tempered growth due to oil production cuts, Latin America will see modest improvement, sub-Saharan Africa is set for stronger growth, and emerging Europe may experience a slowdown.

Outlook

According to the IMF, factoring in recent market trends and the impact of rising trade policy uncertainty, the uncertainty surrounding the global economy is expected to persist throughout 2025. However, potential policy changes are still being discussed.

In 2025, energy commodity prices are expected to decline by 2.6%, largely due to weaker oil demand from China and increased supply from non-OPEC+ countries (which includes Russia), though rising gas prices – caused by colder weather, supply disruptions, and ongoing conflicts in the Middle East – partly offset the decline. Meanwhile, non-fuel commodity prices are projected to rise by 2.5%, mainly driven by higher food and beverage costs due to adverse weather affecting major producers. On the monetary front, major central banks are expected to continue lowering interest rates, though at different speeds, depending on their respective economic growth and inflation outlooks. Fiscal policies in advanced economies, including the U.S., are expected to tighten in 2025–26, with a lesser degree of tightening in emerging and developing markets.

Indian economy overview

Even in FY25, the Indian economy continued to emerge as one of the fastest growing economies in the world, but at a sluggish pace compared to the previous years. Slower growth in the first half of the fiscal (6%) led the RBI to bring down the annual projection to 6.6% (down from an earlier projection of 7%). However, according to the first advance estimates, India's real GDP is expected to grow at 6.4% in FY25.

Some of the key factors which helped drive the growth of the Indian economy include, rural consumption has remained robust, supported by strong agricultural performance, while the services sector continues to be a key driver of growth. Manufacturing exports, particularly in high-value-added components (such as electronics, semiconductors, and pharmaceuticals), have displayed strength, underscoring India's growing role in global value chains.

India's current account deficit (CAD) stood at \$11.5 billion (1.1% of GDP) in Q3 FY25, unchanged as a percentage of GDP but down

from \$16.7 billion in Q2. A surplus of \$4–6 billion is expected in Q4, supported by stronger exports and services. For FY25, CAD is projected at around 0.8% of GDP. Foreign exchange reserves reached a five-month high of \$676.3 billion as of April 4, 2025, making India the fourth-largest holder globally. This growth highlights the country's economic resilience and provides a strong buffer against global volatility.

India's real GVA is projected to grow by 6.4% in FY25, driven by agriculture (3.8%), industry (6.2%), and services (7.2%). However, manufacturing exports remain under pressure due to weak global demand and protectionist trade policies.

The IMF revised India's GDP growth forecast for FY25 to 6.5% (down 0.5 pp), citing a sharp 12.3% contraction in government capex, which has slowed investment growth. Still, net exports are expected to contribute positively due to lower crude prices. Net direct tax collections grew 13.57% to ₹22.26 lakh crore in FY25, surpassing budget estimates and maintaining strong tax buoyancy at 1.57, reflecting sustained

economic momentum.

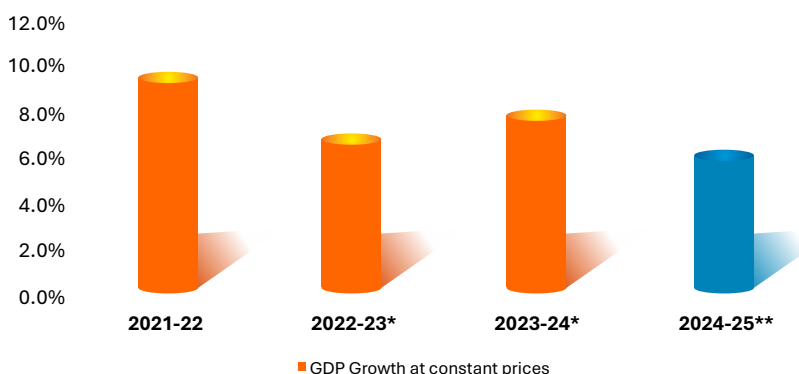

Indian MSME sector

The Micro, Small, and Medium Enterprises (MSME) sector is a critical enabler of India's socio-economic progress. Beyond driving economic growth, it plays a crucial role in shaping the nation's entrepreneurial landscape, particularly in semi-urban and rural regions. Its contributions extend far beyond numbers, fueling innovation, creating jobs, and strengthening local economies. As a key engine of India's GDP and exports, the MSME sector continues to be a catalyst for inclusive and sustainable development.

As a cornerstone of India's industrial ecosystem, the MSME sector drives manufacturing, exports, and employment, shaping the nation's economic fabric. With 5.93 crore registered MSMEs employing over 25 crore people, these enterprises form the backbone of economic activity. In 2023-24, MSME-related products contributed 45.73% of India's total exports, underscoring their pivotal role in establishing the country as a global manufacturing powerhouse. Recognizing this, the latest budgetary provisions focus on fostering innovation, enhancing competitiveness, and improving resource accessibility. By empowering MSMEs with the necessary tools and support, the government aims to expand their reach and amplify their impact on India's economic growth.

Exports from MSMEs have seen substantial growth, rising from ₹3.95 lakh crore in 2020-21 to ₹12.39 lakh crore in 2024-25. The number of exporting MSMEs has also surged, increasing from

52,849 in 2020-21 to 1,73,350 in 2024-25. Their contribution to India's total exports has steadily grown, reaching 43.59% in 2022-23, 45.73% in 2023-24, and 45.79% in 2024-25 (up to 2024). These trends underscore the sector's increasing integration into global trade and its potential to drive India's position as a manufacturing and export hub.

Key Budget takeaways for the Indian MSME Sector

Revised classification criteria: To empower MSMEs with greater growth opportunities, the investment and turnover thresholds for classification have been significantly raised, by 2.5 times and 2 times, respectively. This strategic move aims to enhance operational efficiency, drive technological adoption, and create more employment opportunities, fostering a stronger and more competitive business ecosystem.

Enhanced credit availability: The credit guarantee cover for micro and small enterprises has been increased from ₹5 crore to ₹10 crore, enabling additional credit

of ₹1.5 lakh crore over five years. Startups will see their guarantee cover double from ₹10 crore to ₹20 crore, with a reduced fee of 1% for loans in 27 priority sectors. Exporter MSMEs will benefit from term loans up to ₹20 crore with enhanced guarantee cover.

Credit cards facility for micro enterprises: A new customised Credit Card scheme will provide ₹5 lakh in credit to micro enterprises registered on the Udyam portal, with 10 lakh cards set to be issued in the first year.

Support for startups and first-time entrepreneurs: A dedicated ₹10,000 crore Fund of Funds is likely to be launched to strengthen support for startups, fostering innovation and entrepreneurship across the country. Additionally, a new initiative will empower 5 lakh first-time women, Scheduled Caste, and Scheduled Tribe entrepreneurs by offering term loans of up to ₹2 crore over a five-year period. This initiative aims to create greater financial inclusion, encourage self-reliance, and unlock new opportunities for underrepresented entrepreneurs.

Focus on labour-intensive sectors: A Focus Product Scheme for the footwear and leather sector aims to boost innovation, manufacturing, and non-leather production, creating 22 lakh jobs and driving a ₹4 lakh crore turnover. A new toy sector scheme will enhance cluster development and skill-building, positioning India as a global manufacturing hub. Meanwhile, a National Institute of Food Technology in Bihar will accelerate food processing growth, unlocking opportunities in the eastern region.

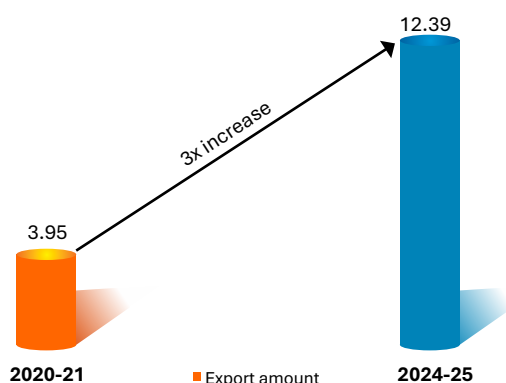

Manufacturing and clean tech initiatives: A National Manufacturing Mission will provide policy support and roadmaps for small, medium, and large industries under the Make in India initiative. Special emphasis will be given to clean tech manufacturing, fostering domestic production of solar PV cells, EV batteries, wind turbines, and high-voltage transmission equipment.

Outlook

Looking ahead, India is expected to maintain its potential real GDP growth of 6.5% YoY from FY26 to FY28, positioning itself as the world's third-largest consumer market by 2026 and the third-largest economy by 2027, trailing only the United States and China. The country's nominal GDP is projected to rise from USD 4 trillion in FY25E to over USD 6 trillion by FY30*.

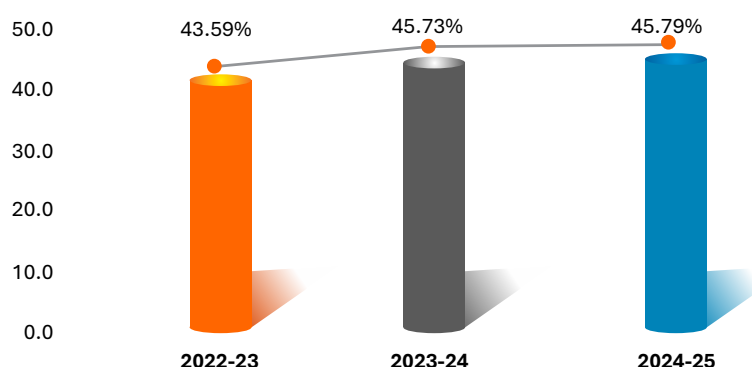

India's growth momentum is expected to be driven by a resilient manufacturing sector, stable inflation levels, supportive tax policies, and robust urban consumption. Ongoing infrastructure development

and structural economic reforms further strengthen the country's capacity to weather global uncertainties. However, key challenges remain, including the need to generate meaningful employment for a growing workforce, navigate a more challenging global trade landscape, and manage the implications of automation on jobs.

Indian robotic automation industry

Industrial robotics represents the use of advanced robotic systems

in manufacturing and industrial environments to automate tasks that were once manual. Built to handle repetitive, precision-driven, and often hazardous activities, these robotic machines are built to deliver higher efficiency, accuracy, and safety across industries. Powered by sensors, actuators, and intelligent programming, they seamlessly perform functions such as assembly, welding, painting, packaging, and material handling. Their integration into production processes not only boosts productivity but also reduces costs and elevates product quality. With rapid advancements in artificial intelligence and machine

learning, industrial robots are becoming increasingly versatile and adaptive, shaping the future of smart factories and driving the transformation of Industry 4.0.

The Indian industrial robotics market, valued at approximately USD 1.39 billion in 2023, is on a strong growth trajectory. Driven by increasing automation and advanced manufacturing adoption, the market is projected to expand at a CAGR of 13.8% between 2024 and 2030, reaching nearly USD 3.45 billion by the end of the decade.

In India, robotics is reshaping the manufacturing landscape, streamlining production lines, enhancing product quality, and cutting operational costs. These technologies are finding applications across welding, painting, assembly, pick-and-place, packaging, and inspection. With the integration of AI and machine learning, robots are evolving into smarter, more adaptable systems capable of handling increasingly complex tasks. As industries seek greater flexibility and efficiency, the demand for collaborative and mobile robots is witnessing strong momentum across the country.

Key trends shaping the Indian industrial robotics industry

Rise of collaborative robots

(Cobots): Collaborative robots, or cobots, are reshaping the way businesses approach automation. Designed to operate safely alongside people without the need for heavy safety barriers, they are particularly well-suited

for SMEs in India. Their intuitive programming and adaptability make it easy to redeploy across multiple tasks, boosting efficiency and productivity. Unlike traditional industrial robots, cobots come at a far more accessible cost, lowering the upfront investment for automation. From electronics to healthcare, cobots are streamlining processes, improving workforce collaboration, and driving smarter operations. With the growing demand for flexible manufacturing, their adoption is set to accelerate in the years ahead.

Integration of AI and machine learning: In India, the integration of AI algorithms with machine vision systems is transforming the capabilities of industrial robots. These advanced systems now enable robots to detect and adapt to even the smallest variations in parts, significantly improving quality control while reducing errors and rework. With AI-driven analytics, robots are also learning from past operations, becoming more efficient and intelligent over time. This adaptability is particularly valuable in high-mix, low-volume production environments, where flexibility is key. Recognising this advantage, manufacturers are increasingly investing in AI-powered robotics to strengthen efficiency, precision, and their competitive edge in global markets.

Export scenario

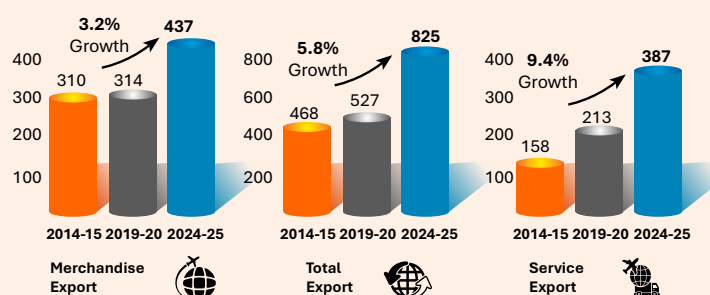

Despite the prevailing geopolitical tensions, the Indian goods and services exports is expected to cross \$800 billion by the end of the current fiscal, signalling a robust economy and continued growth across sectors. This would be higher than the earlier record of \$776.68 billion in the overall exports in FY24.

As demand for Indian products in the global market surges across categories, the country's total exports reached about \$778 billion in FY 2023-24, compared to \$466 billion in FY 2013-14 - a whopping 67% growth. In 2023-24, merchandise exports stood at USD 437.10 billion, while services exports contributed USD 341.11 billion, demonstrating a well-balanced expansion. Key sectors like electronics, pharmaceuticals, engineering goods, iron ore, and textiles played a vital role in this surge. Strengthened by strategic policy measures, enhanced competitiveness, and broader market access, India's export ecosystem is now more resilient and deeply integrated into the global economy.

The momentum has continued into FY 2024-25, with cumulative exports during April-December 2024 estimated at USD 602.64 billion, a 6.03% increase from USD 568.36 billion in the same period of 2023. Strengthened by strategic policy measures, enhanced competitiveness, and broader market access, India's export ecosystem is now more resilient and deeply integrated into the global economy.

India's export growth

India's share in world merchandise exports also improved from 1.66% to 1.81%, with the country advancing in rankings from 20th to 17th position. The feat was achieved as the government implemented several initiatives to sustain and accelerate export growth.

(Source: <https://www.pib.gov.in/PressNoteDetails.aspx?NotelId=154660>)

Growth of Robotics-as-a-Service (RaaS): Robotics-as-a-Service (RaaS) is fast gaining ground in India as a smart and cost-efficient way for companies to embrace automation. By eliminating the need for heavy upfront investments, this subscription-based model covers installation, maintenance, and upgrades, making advanced robotics accessible even to smaller manufacturers. Its built-in flexibility allows businesses to scale their robotic workforce up or down in line with demand, offering a practical edge in industries with seasonal production cycles such as food processing and consumer goods.

Expansion of warehouse and logistics automation: The rapid rise of e-commerce in India is accelerating the use of robotics in order picking, sorting, and packaging. Warehouses

are increasingly deploying autonomous mobile robots (AMRs) to boost efficiency and reduce reliance on manual labour. By integrating seamlessly with warehouse management systems, these technologies help streamline inventory flow and cut down fulfillment times. As same-day delivery becomes the new standard, robotics is no longer a choice but a competitive imperative for logistics companies.

Focus on green and energy-efficient robotics: Manufacturers across India are steadily embracing energy-efficient robotics, a move driven not only by stricter environmental regulations but also by the need to reduce operational costs. Innovations such as high-performance servo motors, regenerative braking systems, and lightweight materials are enabling robots to deliver superior energy savings without sacrificing productivity. At the same time, green robotics practices, from recycling robotic components to using eco-friendly lubricants,

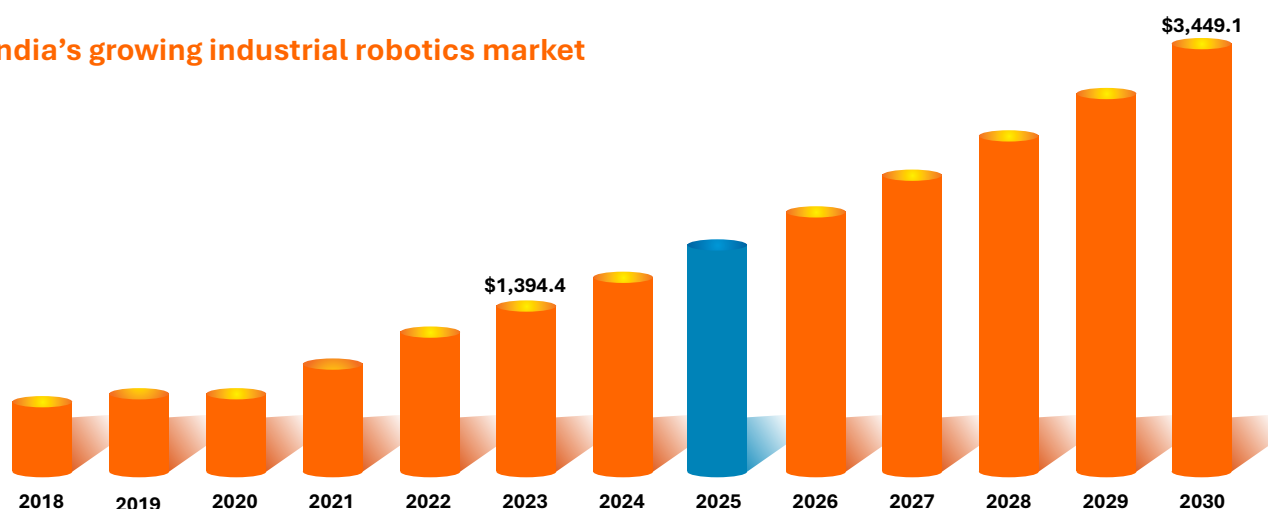

are gaining ground. These efforts resonate strongly with global sustainability trends while strengthening corporate reputation in increasingly eco-conscious markets.

Key growth drivers for the industry

Labour shortages driving automation: India's manufacturing sector continues to face a shortfall of skilled workers, prompting industries to turn toward robotic automation. Unlike human labour, robots can operate around the clock without fatigue, delivering consistent productivity. By taking over repetitive and physically strenuous tasks, they not only bridge labour gaps but also create safer workplaces while allowing human talent to focus on higher-value, strategic activities.

Technological breakthroughs in robotics: Rapid progress in sensors, control systems, and intelligent software is transforming the scope of industrial robotics in India. Capabilities such as AI-powered motion planning, cloud integration, and predictive analytics are reducing downtime

India's growing industrial robotics market

while enhancing accuracy. These innovations are enabling robots to perform increasingly sophisticated and delicate operations, broadening their applications well beyond traditional manufacturing.

Government push for Industry

4.0: Policy support is accelerating the adoption of automation. Incentives such as subsidies, tax benefits, and workforce upskilling programs are encouraging manufacturers to embrace robotics for greater efficiency and global competitiveness. At the same time, national Industry 4.0 initiatives are fostering collaborations between technology providers, academia, and industry leaders, creating an ecosystem for sustained innovation.

Rising need for mass

customization: With consumer preferences shifting toward personalised products, manufacturers are under pressure to produce efficiently at scale while maintaining flexibility. Robotic systems with quick-change tooling and advanced

programming capabilities are addressing this challenge, allowing for seamless handling of variable production runs. This agility helps businesses deliver customised offerings without compromising on cost-effectiveness.

E-commerce and logistics

boom: The explosive growth of online shopping is transforming India's warehousing and logistics landscape. Robotic solutions are increasingly being deployed for packaging, order fulfilment, and last-mile delivery, ensuring

speed, accuracy, and cost savings. Coupled with AI-driven demand forecasting and inventory management, robotics is reshaping the efficiency and reliability of the logistics value chain.

Key challenges for the Indian industrial robotics industry

- **High capital costs:** Significant upfront investment limits adoption, especially for smaller manufacturers.

Manufacturers across India are steadily embracing energy-efficient robotics, a move driven not only by stricter environmental regulations but also by the need to reduce operational costs.

- **Integration challenges:** Legacy systems demand custom programming and redesigns, raising time and costs.
- **Skill shortage:** Limited availability of trained technicians causes inefficiencies and downtime.
- **Cybersecurity risks:** Networked robots face threats of disruption, data theft, and safety hazards.
- **Regulatory compliance:** Strict safety standards require ongoing investment in training, audits, and safeguards.

Indian cyber security industry

India stands at the heart of a digital revolution, rapidly embracing new technologies and transforming the way government services are delivered to its citizens. From leading the world with instant payment platforms like UPI—processing over 16 billion transactions every month—to exploring central bank digital currencies, the country has firmly established itself as a pioneer in building a robust digital financial ecosystem.

Alongside this transformation, the Indian cybersecurity market is gaining strong momentum in 2025. Rising cyber threats, growing digital adoption, and regulatory frameworks such as the Digital Personal Data Protection Act (DPDPA) are driving demand for secure systems. According to Coherent Market Insights, the industry is valued at around USD 10.84 billion in 2025 and is projected to nearly double, reaching USD 20.59 billion by 2032 at a CAGR of 9.6%. This growth is expected to be fuelled by the urgent need for advanced

network and cloud security, AI-powered solutions, and skilled professionals. However, challenges persist, including a shortage of specialized talent and the limitations of legacy infrastructure.

Key trends driving growth of the Indian cybersecurity industry

Rising cyber threats: An increasing volume of sophisticated attacks, including ransomware and deepfakes, necessitates advanced security measures.

Digital transformation: The ongoing acceleration of digital transformation across sectors creates a greater need for cybersecurity to protect expanding digital footprints.

Regulatory compliance: Mandates such as the DPDPA and data localization requirements are pushing organizations to invest more in cybersecurity solutions.

Artificial Intelligence (AI) integration: AI and machine learning are playing a significant role, enabling more effective behavioural-based detection and real-time threat analysis.

Network and cloud security dominance: Network security remains a foundational segment, while cloud security solutions are also experiencing significant growth due to increased cloud adoption.

Impact of AI on India's cybersecurity industry

Artificial Intelligence (AI) is reshaping India's cybersecurity landscape by introducing faster, smarter, and more predictive defense mechanisms. With AI-driven systems, organizations can detect anomalies and malicious activity in real time, significantly reducing response times and lessening the reliance on manual monitoring. Machine learning models are increasingly being used in Security Operations Centers (SOCs) to analyze massive volumes of log data and network traffic, uncovering advanced persistent threats and zero-day vulnerabilities that traditional methods often overlook. Businesses across BFSI, healthcare, and IT are rapidly adopting AI-powered security solutions to stay ahead of evolving cyber risks while also ensuring compliance with regulations such as the Digital Personal Data Protection Act (DPDPA).

Artificial Intelligence (AI) is reshaping India's cybersecurity landscape by introducing faster, smarter, and more predictive defense mechanisms.

Company overview

Affordable Robotic & Automation Limited (ARAPL) is a leading provider of automation solutions, delivering innovative and cost-effective robotic systems to enhance productivity, efficiency, and quality across industries. Headquartered in Pune, India, the Company has steadily evolved from being a trusted domestic automation partner to building a growing presence in international markets.

With expertise spanning industrial robotics, assembly lines, material handling, and customised automation solutions, ARAPL caters to a diverse clientele across automotive, manufacturing, and other key sectors. The Company's strong engineering capabilities, customer-centric approach, and focus on technology-driven solutions have established it as a reliable partner for businesses looking to embrace automation.

In FY25, ARAPL continued to strengthen its foundation for sustainable growth by expanding global operations, optimising costs to enhance profitability, and investing in advanced automation technologies. By aligning its strategy with industry trends and customer needs, the Company remains well-positioned to capture opportunities in both domestic and international markets.

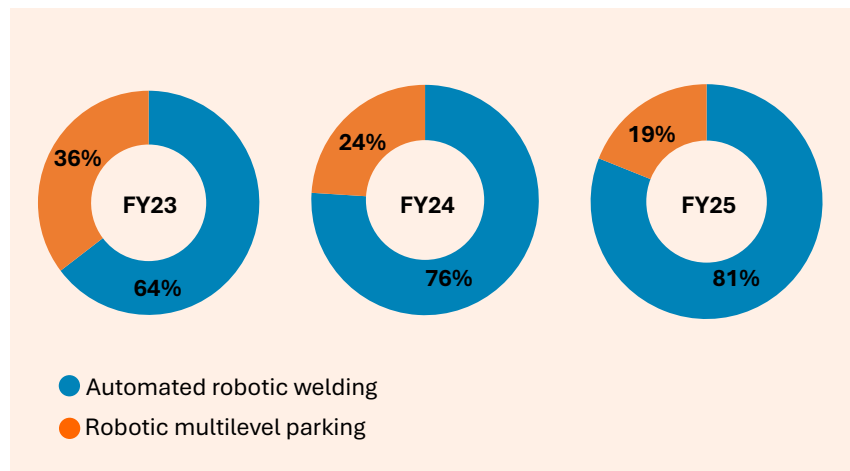

Key business strengths

- **Proven expertise in automation:** Strong track record of delivering innovative, reliable, and cost-effective automation solutions across industries.

- **Diverse product portfolio:** Wide range of offerings, including industrial robotics, assembly lines, and customised automation systems, catering to varied customer needs.
- **Engineering excellence:** Skilled workforce and deep technical know-how enable the design and execution of complex, high-value projects.
- **Customer-centric approach:** Long-standing relationships with reputed clients, built on trust, quality, and timely delivery.
- **Focus on cost optimisation:** Continuous efforts to streamline operations and improve profitability while maintaining high quality standards.
- **Growing global presence:** Expanding footprint beyond India, opening new avenues for revenue diversification and growth.
- **Sustainability orientation:** Commitment to efficient resource utilisation and environmentally responsible solutions, ensuring long-term value creation.

Analysis of the profit and loss statement

Revenue: Revenue from operations reported a 7.00% growth from ₹15018.11 lakhs in 2023-24 to reach ₹16068.86 lakhs in 2024-25. Other income of the Company accounted for only 0.13% share of the Company's revenue pie, reflecting the Company's focus on its core business operations.

Expenses: Total expenses of the Company increased by 7.5% from ₹ 14188.39 lakhs in 2023-24 to ₹15247.40 lakhs in FY25. Raw material and direct costs (of the Company's revenue from operations) increased by 3.45% from 65.50 % in 2023-24 to 68.95% in 2024-25. Employee expenses,

accounting for 13.25% share of revenues, decreased by ₹[148.39] lakhs 1.91% from ₹2277.52 lakhs in 2023-24 to ₹ 2129.12 lakhs in 2024-25.

Profitability: Company's EBITDA stood at ₹1439.49 lakhs in 2024-25 compared to ₹1284.49 lakhs in 2023-24. Net profit for the year stood at ₹598.59 lakhs compared to ₹607.19 lakhs in the previous year. PAT decreased by 1.42% during the year largely owing to Production Cost Increase, Operating profit margin for the year stood at 8.02% compared to 7.70% in the previous year, whereas net profit margin stood at 3.73% in 2024-25 as against 4.04% in 2023-24.

Sources of funds

The net worth of the Company increased by 5.47% from ₹10553.50 lakhs as on 31st March, 2024 to ₹11131.01 lakhs as on 31st March, 2025 owing to increase in reserves and surplus.

The capital employed by the Company stood at ₹16695.61 lakhs as of March 31, 2025 as compared to ₹15175.90 lakhs as on March 31, 2024. Long-term debt of the Company increased by 29% (₹453.29 lakhs) as on March 31, 2025 due to Company's investment in Capex. The long-term debt-equity ratio of the Company stood at 18.12% in 2024-25 compared to 14.81% in 2023-24. Finance cost increased by 42.7% from ₹326.57 lakhs in 2023-24 to ₹466.47 lakhs in 2024-25 primarily on account of increase in the long-term loan taken during the year for the planned capex. The Interest coverage ratio in 2024-25 stood at 3.09% compared to 3.93% in the previous year.

Applications of funds

Fixed assets (gross) of the Company increased by 24% from ₹2322.64 lakhs as on March 31, 2024 to ₹2881.25 lakhs as on March 31, 2025.

Working capital management

Current assets of the Company increased by 5.35% from ₹14268.57 lakhs as of 31st March 2024 to ₹ 15032.64 lakhs as of 31st March 2025. The current and quick ratios of the Company stood at 1.48 and 0.94 respectively in 2024-25 compared to 1.47 and 0.91, respectively in 2023-24. Trade receivables as of March 31, 2025 stood at ₹8512.69 lakhs, representing 193 days of sales

Enterprise Risk Management

At ARAPL, risk management is a cornerstone of our operations. We adopt an enterprise-wide approach, focusing on identifying and managing key operational and strategic risks, supported by a dynamic business continuity plan. Our aim is to unlock opportunities that enhance organisational value while proactively mitigating risks that could impact future performance.

Our approach includes:

- An integrated process for risk identification, assessment, and reporting.
- Decentralised management of specific risks and opportunities at operational levels.
- Corporate-level aggregation and oversight by the Risk Management and Sustainability Committee, with overall guidance and control from the Board.

The Company continuously pursues initiatives to assess, minimise, or avoid risks, while maintaining a strong focus on cost control and operational efficiency across all functions. Our risk management framework involves prioritising risks, continuously monitoring them, implementing appropriate controls, and

Human Capital

Our people have been at the heart of ARAPL's journey, shaping the Company into the success it is today, and will continue to drive its future growth. Their exceptional talent, dedication, and sense of ownership form the bedrock of our achievements. Even in an unprecedented year, their proactive approach and seamless teamwork enabled us to honour our commitments, strengthen the trust of our customers, and advance toward our organizational goals despite challenging business conditions.

We hold our employees' contributions in the highest regard, placing their trust, well-being, and safety at the forefront of everything we do. It is thanks to their unwavering efforts that we have been able to deliver life-saving medicines to those who need them most, even under the toughest

circumstances. Providing a secure, healthy, and supportive work environment for our team remains our utmost priority.

Internal Control Systems and Adequacy

A robust internal control mechanism is a prerequisite to ensure that an organization functions ethically, complies with all legal and regulatory requirements, and observes the generally accepted principles of good corporate governance. It extends the overall corporate

risk management framework, as well as is an integral part of the accounting and financial reporting process.

ARAPL's internal control systems are commensurate with the nature of its business and the size and complexity of its operations. The control mechanism provides for well-documented policies/guidelines, authorisations and approval procedures to ensure the orderly and efficient conduct of its business. CORPORATE GOVERNANCE REPORT

Company's beliefs on Corporate Governance

"Corporate Governance is the application of best management practices, compliance of law in true letter and spirit and adherence to ethical standards for effective management and distribution of wealth and discharge of social responsibility for sustainable development of all stakeholders." - The Institute of Company Secretaries of India

Our corporate governance is a reflection of our value system encompassing our culture, policies and relationships with our stakeholders. Integrity and transparency are key to our corporate governance practices to ensure that we gain and retain the trust of our stakeholders of all times.

The Company believes in exceeding the highest standards of corporate governance as it enhances the long-term value of the Company for its stakeholders. Good governance is an essential ingredient of good business. The following report on the implementation of the Corporate Governance Code is a sincere effort of the Company to follow the Corporate Governance Principles in its letter and spirit.

Corporate Governance Framework

Our corporate governance framework ensures that we make timely disclosures and share accurate information regarding our financials and performance, as well as disclosures related to the leadership and governance of Affordable Robotic & Automation Limited ('the Company'). We believe that an active, well-informed and independent board is necessary to ensure the highest standards of Corporate Governance. At Affordable Robotic & Automation Limited, the Board of Directors ('the Board') is at the core of our corporate governance practice. The Board oversees the Management's function and protects the long-term interest of

our stakeholders. As on March 31, 2023, the Board comprise of 7 Members, out of which three members are Independent Directors. An Independent Director is nominated as the Chairperson of each of the Board Committees, namely Audit, Nomination and Remuneration, Stakeholder's Relationship, and corporate social responsibility committees.

Corporate Governance Guidelines

The board has defined a set of corporate governance best practices and guidelines to help fulfill our corporate responsibility towards our stakeholder. The guidelines ensure that the board will have the necessary authority and processes to review and evaluate our operations as and when required. Further, these guidelines allow the board to make decisions that are independent of the Management. The Board may change these regulations regularly to achieve our stated objectives. The guidelines can be accessed from our website, at www.arapl.co.in

1. Board of Directors

A. Size and composition of the Board

Emphasis of Matters

Our opinion is not qualified in respect of above matters reported in Key Audit Matters as per the documents verified and management explanation received.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act,

2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with Ind AS including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance

of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss, notes to accounts and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid Standalone Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on 31st March, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2025 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations on its financial position in its Standalone Financial Statements, except as stated above and reported in Caro.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- h) As required by Section 143(3) of the Act, we report that :

The management has represented that other than those disclosed in the notes to accounts,

- i. no funds have been advanced or loaned or invested by the company to or in any other person(s) or entities, including foreign entities ("Intermediaries"), with the understanding that the intermediary shall whether directly or indirectly lend or invest in other persons or entities identified in any manner by or on behalf of the company (Ultimate Beneficiaries) or provide any guarantee, security or the like on behalf of ultimate beneficiaries.
- ii. no funds have been received by the company from any person(s) or entities including foreign entities ("Funding Parties") with the understanding that such company shall whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the funding party (ultimate beneficiaries) or provide guarantee, security or the like on behalf of the Ultimate beneficiaries.

Based on the audit procedures performed which we considered reasonable and appropriate, we report that nothing has come to our notice that has caused us to believe that the above representations given by the management contain any material mis-statement.

- i) No Dividend has been declared or paid during the year, hence reporting on compliance of section 123 of the Act is not applicable.
- j) Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

"Annexure B" to the Independent Auditor's Report of even date on the Standalone Financial Statements of AFFORDABLE ROBOTIC AND AUTOMATION LTD.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of AFFORDABLE ROBOTIC AND AUTOMATION LTD. ("the Company") as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with Ind AS. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with Ind AS, and that receipts and expenditures of the company are being made only in accordance with

authorizations of management and directors of the company; and

- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The Holding Company's Board of Directors are responsible for the preparation and presentation of these consolidated financial results that give a true and fair view of the net profit/ loss and other comprehensive income and other financial information of the Group including its associates and jointly controlled entities in accordance with the Indian Accounting Standards prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of

the Act for safeguarding of the assets of the Group and its associates and jointly controlled entities and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial results by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial results, the respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for assessing the ability of the Group and its associates and jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for overseeing the financial reporting process of the Group and of its associates and jointly controlled entities.

Auditor's Responsibilities for the Audit of the Consolidated Financial Results

Our objectives are to obtain reasonable assurance about whether the consolidated financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism

throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and jointly controlled entities to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and jointly controlled entities to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial results, including the disclosures, and whether the consolidated financial results represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding

the financial results/financial information of the entities within the Group and its associates and jointly controlled entities to express an opinion on the consolidated Financial Results. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the consolidated financial results of which we are the independent auditors. For the other entities included in the consolidated Financial Results, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial results of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33(8) of the Listing Regulations, as amended, to the extent applicable.

Other Matters

The consolidated Financial Results include the audited Financial Results of subsidiaries, associates and jointly controlled entities, whose Financial Statements/Financial

Results/ financial information reflect Group's share of total assets of Rs. 23275.69 Lacs as on 31.03.2025, Group's share of total revenue of Rs. 16340.41 Lacs and Rs. 16355.10 Lacs for the period from 01.04.2023 to 31.03.2024 and for the period from 01.04.2024 to 31.03.2025 respectively and Group's share of total net profit/(loss) after tax of Rs. 642.75 Lacs and (Rs.1164.88) Lacs for the period from 01.04.2023 to 31.03.2024 and for the period from 01.04.2024 to 31.03.2025 respectively, as considered in the consolidated Financial Results, which have been certified by the management of the Company. The management representation letter(MRL) regarding financial statements/ Financial Results/financial information of these entities have been furnished to us and our opinion on the consolidated Financial Results, in so far as it relates to the amounts and disclosures included in respect of these entities, is based solely on the MRL and the procedures performed by us are as stated in paragraph above.

Our opinion on the consolidated Financial Results is not modified in respect of the above matters with respect to our reliance on the work done and the Financial Results/ financial information certified by the Board of Directors.
